

We need to add Yahboom extensions:

Link: <https://github.com/lzty634158/Croco-Kit>

Wiring:

Micro:bit	Module
5v	VCC
GND	GND
P1	ECHO

As shown below:

Experimental phenomena:

After the program download is complete, micro:bit dot matrix will display "Hello!". Then, micro:bit dot matrix will scroll display the distance detected by the current ultrasonic module.
